

Camila Gonzalez

SENIOR PRODUCT DESIGNER (AI & UX/UI) | AI PRODUCT DESIGNER | UX DESIGNER

camilagonzalez.xyz camil4.gon@gmail.com 678-577-2248 |

Portfolio & Case Studies: AI Product Design · Enterprise UX · Design Systems

Languages: Spanish (Fluent) | French (Working Knowledge)

Creative and detail-oriented AI Product Designer with 6.5 years of professional design experience, including 4.5 years focused on UX/UI and product design. Skilled in translating complex concepts into intuitive, user-centered digital products that leverage emerging AI technologies. Experienced in design systems, AI-powered prototyping, front-end development, accessibility, and cross-disciplinary collaboration to deliver scalable solutions.

CORE COMPETENCIES

Product Design · UX Research · Interaction Design · Design Systems · AI Product Design · Generative AI · Prompt Engineering · Conversational UX · AI Interaction Design · Human-Centered AI · Agentic Workflows · LLM Evaluation · Prompt Design · User Flows · Wireframing · Rapid Prototyping · Accessibility (WCAG) · A/B Testing · Product Strategy · Information Architecture · Cross-functional Leadership · Design Thinking

TECHNICAL SKILLS

DESIGN – Figma, Figma MCP, Adobe XD, Photoshop, Illustrator, InDesign, After Effects, Animate, Lightroom, Rive, Axure RP 9, Adobe Creative Cloud

LANGUAGES – HTML, CSS, JavaScript, TypeScript

FRAMEWORKS & PLATFORMS – React, Next.js, Node.js, Bootstrap, Tailwind CSS, Webflow, Supabase, Vercel, D3.js, GitHub

AI & LLMS – Claude, ChatGPT, Gemini, OpenAI API, MCP Servers, Perplexity AI, Midjourney, DALL-E, Runway ML, Sora, Prompt Engineering, AI Agents, Agentic Workflows, RAG, LLM Evaluation, Conversational UX, AI Interaction Design

AI DEV & IDES – Cursor, Claude Code, v0, Bolt, Replit, Lovable, GitHub Copilot, VS Code

COLLABORATION & PM – Notion, Jira, Confluence, Trello, Agile/Scrum, MS Teams, MS Office Suite, Google Workspace

PROFESSIONAL EXPERIENCE

SEI (Strategic Education, Inc.) — UI/UX Designer / Product Designer

Aug 2022 — Present

- Improved email conversion rates by 300% through A/B testing and user research insights.
- Designed AI-integrated enrollment and internal workflow tools for Capella and Strayer University, impacting 50,000+ users and increasing lead generation across web and email campaigns.
- Led usability testing and iterative design to enhance accessibility and engagement.
- Collaborated with developers, copywriters, and product managers to maintain and expand design systems.
- Introduced AI-driven design approaches to streamline workflows and personalization. Winner of companywide AI Hackathon.

Walmart — UX Designer (Contract)

Mar 2022 — Aug 2022

- Designed enterprise SaaS compliance tools for Walmart Global Tech's anti-money laundering division — including a suspicious activity tracking dashboard and a legal claims lookup application — supporting a compliance program that has blocked over \$700M in fraudulent money transfers.
- Partnered with product managers and engineers in Agile sprints to define requirements and deliver compliance UX on tight timelines.
- Conducted stakeholder workshops and created user flows and journey maps for complex financial compliance workflows.
- Reduced workflow friction for compliance analysts through information architecture improvements and streamlined dashboard navigation.
- Designed enterprise dashboards for high-volume operational teams, translating regulatory requirements into intuitive UI patterns.
- Created design patterns and prototypes informing product roadmaps for internal compliance tools.

Freelance — Designer

Dec 2019 — Present

- Delivered AI-enhanced branding, UI designs, and product interfaces for diverse clients.
- Produced web, print, and motion graphics optimized for user experience and conversions.

Michael Coleman Creative Agency — Digital Designer

Dec 2021 — Feb 2022

- Managed digital projects connecting developers and design teams, creating UI experiences, banner ads, and brand assets.

Chris Knowlton Creative — Contract Designer

Aug 2021 — Oct 2021

- Created animated illustrations for augmented reality integration.

Synk Game — Contract Graphic Designer

Jun 2021 — Aug 2021

- Designed product packaging, branding, and expansion packs. Improved navigation flow and UX for a nonprofit website.

UPS — Digital Print Specialist

Jun 2021 — Oct 2021

- Designed and printed marketing materials, enhancing brand presentation and typography for small businesses.

The Bradford Group — Advertising Intern

May 2019 — Aug 2019

- Produced promotional mailers, product advertisements, and event branding.

Lucky Plush — Graphic Design Intern

Jan 2019 — May 2019

- Developed websites, motion graphics, and print/digital advertising materials.

EDUCATION

— BFA, Visual Communication

School of the Art Institute of Chicago · 2019

CERTIFICATIONS

— AI in Product Design

ELVTR

— Full Stack Web Design Certificate

DevMountain · HTML, CSS, JS, Responsive Design

— UI/UX Bootcamp Certificate

Georgia Tech University

ACHIEVEMENTS

★ Companywide AI Hackathon Winner — SEI

★ Top 10 in the U.S. — IBM Creative Jam UI/UX (2019)

★ Adobe Government Recognition for design excellence

CORE STRENGTHS

AI-Augmented Design, A/B Testing, Interaction Design, Accessible UI, Brand Development, User Research, Responsive Web Design, Data Visualization
